GREEN COMMUNITY RESILIENCE INITIATIVE

Rolling Towards the Future

Project No: 2024-1-EL02-ESC30-SOL-000235354

Celebrating One Year of Green Action in Veroia!

After a full year of learning, action and collaboration, the Green Community Resilience Initiative concludes with a spirit of pride and optimism.

What began as an idea among five young friends has become a community movement for sustainability, resilience and solidarity. To celebrate the end of the project, the team organized a joyful Community Bike Ride, a day filled with energy, laughter and shared purpose. Participants rode through the streets of Veroia, symbolizing the shift toward greener, healthier and more connected living.

ROLLING TOWARDS THE FUTURE

During the Final Workshop, the group reflected on their journey: the trees planted, the partnerships formed, the lessons learned and the new skills gained. Supported by EQUALINE and their coach, they reviewed results, evaluated the project's impact and discussed how to continue their green mission in future initiatives. But this is not an ending, it's a beginning. The project's spirit will live on through the youth who took part, the community members who were inspired and the local organizations that now share this environmental vision.

As the team beautifully put it: "We planted trees, but we also planted ideas and ideas can keep growing forever."

Follow the legacy of GCRI on Equaline.gr and continue to support green, youth-led actions across Greece!
