QUESTIONNAIRE

<https://forms.gle/fh9uFaykC7rrJWx57>

Name of the tool: Artificial intelligence / AI

Specific tool: ChatGPT

Level: Beginner

Target group: VET STUDENTS

1. What is one main advantage of artificial intelligence (AI) for VET students?

- A) It can completely replace practical training.
- B) It supports learning by saving time and improving efficiency.**
- C) It guarantees high exam grades.

2. Why is human supervision necessary for certain AI systems?

- A) Because they are not infallible and their decisions may pose ethical or safety risks.**
- B) Because they work slowly.
- C) Because they do not always use up-to-date data.

3. What is ChatGPT?

- A) A search engine providing the latest information from the internet.
- B) An AI-based large language model capable of understanding, generating, and transforming text.**
- C) A code editor application specifically for programmers.

4. What does 'prompt' mean in the use of ChatGPT?

- A) The quality of the AI-generated response.
- B) The data file required to train the AI.
- C) The question, instruction, or task given by the user.**

5. What are the three main components of a prompt?

- A) Specific task, timeframe, formatting.
- B) Role, format, context.**
- C) Topic, target audience, style.

Funded by
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the Tempus Public Foundation (TPF). Neither the European Union nor the granting authority can be held responsible for them.

6. Which is NOT an advantage of ChatGPT?

- A) 24/7 availability.
- B) Speed.
- C) **Independent legal decision-making.**

7. What does it mean that ChatGPT “hallucinates”?

- A) Repeats strange or meaningless words.
- B) **Provides fictional or inaccurate information as if it were real.**
- C) Communicates with other AI systems to solve tasks.

8. What can we do to verify the correctness of a ChatGPT response?

- A) **Check the accuracy of the response in reliable sources, such as official websites.**
- B) Do nothing; accept the response because ChatGPT never gives wrong answers.
- C) Ask ChatGPT another question and rely on that answer.

9. Why is it important for VET students to learn how to use AI responsibly?

- A) **Because digital competence and the ethical use of AI are already essential skills in today’s labour market.**
- B) Because AI provides only correct answers.
- C) Because AI eliminates the need of practical training.

10. How does ChatGPT support personalized learning in vocational education?

- A) By grouping students based on their previous results and providing the same learning material to each group.
- B) **By adapting explanations and learning support to individual needs and skill levels.**
- C) It cannot support it yet, as it does not have enough input data available.
